Protecting our employees and customers, the communities in which we operate, and the environment is fundamental to our business. Chemtool Incorporated is committed to continual improvements in health, safety, environmental, pollution prevention, and security performance. We achieve this by setting on-going, clear and measurable health, safety, environmental, and security improvement goals. We rely on the creativity, innovation, accountability, responsibility and knowledge of our employees to meet these goals using a verifiable systems approach.

Chemtool Incorporated is committed to the guiding principles of Responsible Care® and conducts its business in an ethical and socially responsible manner in compliance with applicable legal and Responsible Care® requirements. We have open dialog with our stakeholders to address concerns, report progress, create understanding and build confidence in our operations and products.
