

CT 141 SU2

COLD START-UP OIL

▶ PRODUCT DESCRIPTION

CT 141 SU2 is a cold start fluid designed for the aluminum die caster. It is applied by brushing a uniform layer on the cold die and two to three parts can be cast before the use of a die casting lubricant spray.

▶ FEATURED BENEFITS

- Chemically compatible to cast parts and will not stain like conventional oil or grease based products
- Provides a uniform coverage to eliminate soldering

APPLICATION

TYPICAL PROPERTIES

Appearance	Green/yellow liquid
Consistency	Fluid
Specific Gravity, 60°F (15.6°C)	0.91
Weight, lb/gal., 60°F (15.6°C)	7.58
Flash Point (COC)	> 500°F (>260°C)
Viscosity, 40°C	35 cSt

PRODUCT CODE

2678500000
